

Let's Chill

Trey Songz

Oooooh yea
Let's chill
Let's chill
I just wanna chill
Let's chill
Take you back to the crib
Give you something you can feel
Let's chill
From the dinner to the movie
Hop in that jacuzzi
Bring your body to me
You're always used to seeing me cheating in the club
With the video models plus the bottles yea a lotta that
Tonight I could care less bout where the party at
Alot of numbers in my phone but you the one I'm a holla at
Numbers we exchange like money be my pussy ronnie won't you holla back?
Not only your body that face could embrace any cover of the...
Ain't no body like you thinking I should wife you
I'm looking like who
I'm looking like you
She say I'm a playa you jst want me for the night boo
Well that might true but I like you
Then she smile boy you wild I'm a fight you
Rocka-by-baby when the beat drops
Don't let your friends know we gonna creep off
They gonna be haters tell em cya later
Just want us to be alone so...
Let's chill
Take you back to the crib
Give you something you can feel
Let's chill
From the dinner to the movie
Hop in that jacuzzi
Bring your body to me
Let me get you in the zone
I'm a turn your body on
Let's chill
From the dinner to the movie
Hop in that jacuzzi

Bring your body to me
Let's chill
[Amerie:]Now I be chillin in this club for awhile

But these hood chasing scalywag dudes ain't my style
So I'm thinking I'm a take it home call it a night
When I look over to the left and see something I like
Keep it down sexy now even cut them breads
Cuff right out to the chest look me in my face
And all I want is you and I'm wanting him to give me something I can feel

[Trey Songz & Amerie:]Let's chill

Take you back to the crib
Give you something you can feel
Let's chill

From the dinner to the movie

Hop in that jacuzzi

Bring your body to me

Let me get you in the zone

I'm a turn your body on

Let's chill

From the dinner to the movie

Hop in that jacuzzi

Bring your body to me

Let's chill

[Amerie (Trey Songz):]All my love is for you

(What ever you want I will do

Sing it baby)

And time and time again you showed me (showed me)

This is where I oughta be (oughta be)

Is that a challenge to find what's really good for me? (oooh)

I'm cool with just being with you

(With you)

[Trey Songz & Amerie:]Let's chill

Take you back to the crib

Give you something you can feel

Let's chill

From the dinner to the movie

Hop in that jacuzzi

Bring your body to me

Let me get you in the zone

I'm a turn your body on

Let's chill

From the dinner to the movie

Hop in that jacuzzi

Bring your body to me

Let's chill
