Be With You

Pieta Brown

Oh, Ive been here before
& I know whats behind your door
& I know Ill be alright
But I want to be with you tonightI know some stories they do get old
& I know what Ive been told
Yeah I know Ill be alright
But I want to be with you tonightCan you take me there?
You always knew the way
Out past the borderline
I promise I wont stayIn the morning I will go
Nothing to tell, nothing to show
Yeah I know Ill be alright
But I want to be with you tonightI want to be with you tonight
