

# Be With You

Pieta Brown

Oh, Ive been here before  
& I know whats behind your door  
& I know Ill be alright  
But I want to be with you tonightI know some stories they do get old  
& I know what Ive been told  
Yeah I know Ill be alright  
But I want to be with you tonightCan you take me there?  
You always knew the way  
Out past the borderline  
I promise I wont stayIn the morning I will go  
Nothing to tell, nothing to show  
Yeah I know Ill be alright  
But I want to be with you tonightI want to be with you tonight
