Satisfied

Dru Hill

Excuse me for a moment
Let me introduce myself
I am love overflowing
And I've come to bring you help
I've been watching you for a while
And your heart is in dismay
My only reason on this earth
Is to bring you a brighter day
I can show you how to make love
If you want me to
I'll keep you satisfied
I'll keep you satisfied
I can show you how to make love
If you want me to come to my room take
Off your clothes and we can start to flow
I'll keep you satisfied, I'll keep you satisfied
Girl I'm so glad that you wanted to stay
Sit back, relax 'cause girl my love's on the way
All the possibilities
Open your mind relax and let your body feel the beat
Are you ready
To relax your mind and let me take you away?
Gee, loving you is fun
Assuming your sensuality means us one on one
I can show you how to make love
If you want me to
I'll keep you satisfied
I'll keep you satisfied
I can show you how to make love

If you want me to
I'll keep you satisfied
I'll keep you satisfied
Let me show you all the love you need
It will be like a fantasy
My baby, baby, baby, baby, baby
Let me do you right all through the night
My baby I'll make you feel alright, oh yeah
I can show you how to make love

If you want me to
I'll keep you satisfied
I'll keep you satisfied
I can show you how to make love
If you want me to
I'll keep you satisfied
I'll keep you satisfied
I can show you how to make love
If you want me to
I'll keep you satisfied
I'll keep you satisfied
I can show you how to make love
If you want me to
I'll keep you satisfied
I'll keep you satisfied
I can show you how to make love
If you want me to
I'll keep you satisfied
I'll keep you satisfied
