Wake Up

Jade Ewen

Hey Yeah
No
I Cant Lose If i dont fight
Im not wrong if this feels right
You cant go if i dont go
You cant quit if i say no
I cant fail if i dont try
I cant decieve if i dont lie
You step forward then i step back
You cant act if i dont actAnd you say im living in a dream
state i gotta go my own way
but i aint lettin' this slip now
oh not nowI dont wanna wake up
cant let go of me yet
cant you see that
i dont wanna wake up
cant say this is over
dont you know thatcause ive been workin'
too hard for this for too long
put in my heart and risked somemore
I dont wanna wake up
cant let go of me yet
cant you see that
I need you
you you youyou dont know and im so sure
you cant leave and take my all
and i cant lose it if i dont find
i aint wrong if this feels right
then you say i should be movin' on
but i, i got no way to go
without you so im stayin'
oh im stayin'cause i dont wanna wake up
cant let go of me yet
cant you see that
i dont wanna wake up
cant say this is over
dont you know thatcause ive been workin'
too hard for this for too long
put in my heart and risked somemore

I dont wanna wake up
cant let go of me yet
cant you see that
I need you you you
only you you you
i want you you youcant you see that
no one else will
let nobody hurt you
i will do anything
i will go anywhere
baby yeah yeah yeahI dont wanna wake up
cant let go of me yet
cant you see that
i dont wanna wake up
cant say this is over
dont you know thatcause ive been workin'
too hard for this for too long
put in my heart and risked somemore
I dont wanna wake up
cant let go of me yet
cant you see thati need you
