

# From the Sea

## Eskimo Joe

I'm so spaced out today  
I could have slept for days  
It's like a radar  
And it comes to you from the seaShe's just so under pain  
I'm so spaced out today  
And my head's a lightweight  
And it's comes to you from the seaHello, hello, oh, hello  
(The world repeats itself somehow)  
She knows, she knows, oh, she knows(The world repeats itself somehow)  
Only just beginning to know  
She's only just beginning to knowOoh, there's just no oxygen  
Ooh, why can't we just fall in, in the sea?
