

Freeway

Soul Asylum

Wanna see you in my rearview mirror
Out on the freeway freeway
Nobody said it would be easy
Freeway freeway
Take me back to
I can't change the time and
I can't change your mind
But I gotta find a freeway
You're on my way
On my way
Leeway I need a little leeway
Got to get some space around and ??
Leeway leeway
Make the best of nothing left for me
I can't find the time

Gotta see what I can find
Out on the freeway
You're on my way
On my way
I'm not talking
Someday someday
I ain't waiting around for someday
Someday someday
I'm gonna get away from all this someday
I can't change the time and
I can't change your mind
You're on my way
On my way
