

No One's Right

Agathocles

Ever got the feeling that you're being controlled
not by the state but by friends you claim to know
 being controlled is a common thing
 but just act real and fucking win
 I drink you don't, what a big deal
 we still get along and our friendship is real
 being controlled is a common thing
 but just act real and fucking win
 you're not right and the same goes for me
 we're just two friends with each our own ideas.
 being controlled is a common thing
 but just act real and fucking win
