My Sweet Song

Toby Lightman

My sweet song
It's been a long time
What'd you come around here for?
'Cause that old love is gone
And I've since carried on
Thought I was rid of you for sure
Oh my sweet song
You don't sound so sweet no more
Please don't sing to me
'Cause it hurts me to hear the melody
That was good to me before
Oh my sweet song
You don't sound so sweet no more

Oh, you said love was forever
And you told me love would never break my heart
And I believed you as I fell that's all over
Let it go, you're just a song I used to know
And your fantasy, it don't work for me
Go and pick on someone else
My sweet song, guess I'm stuck with you
And someday, I'll find the love I'm looking for
Then my sweet, sweet song
Won't sound so sad no more
My sweet, sweet song, I'll guess I'll always be yours
