

# Silence of Time

## Godsend

Oh, restless horror of my life  
I have repelled thy before  
But now I fear I am too weak  
Too weak to fight thy on Time and time again we meet  
Never real but all too lethal you are  
And I can not carry my burden on  
The synchronicity of time and death has closed on me My companions in life are long dead  
If not physically then dead in my mind  
History repeats itself  
And the last act of a great piece of art is coming to an end I have raved through the garden of life  
And now it's guardian has come to throw me out  
Fear is not a relevant feeling to what lies beyond  
Rather curiosity of unknown realms Walk I will  
Through life and death  
My quest is not at the final end  
For even death is death to unravel Speak of me for what I was  
Not for what I am  
Time heals they say  
But it also brings on death With the pressure of time  
My body will crumble  
And the dust will lie heavy on my stonewashed tomb  
Deep below I shall lie but far away I will roam  
Once again
