

# Carolina County Ball

## Elf

Well just imagine my surprise to be there  
If you touched me with a feather I'd fall  
I guess that you could say we finally made it  
We played the Carolina County Ball We had the ladies all in line to see us  
I must have promised twenty seven I'd call  
We thought the sun was never gonna stop shining  
On the Carolina County Ball We played it hot, hard and nasty, oh yeah  
At the Carolina County Ball  
When you got it sailing really wailing  
It's all right, ooh right Oh right  
Yeah Well just imagine my surprise to be there  
If you touched me with a feather I'd fall  
We thought the sun was never gonna stop shining  
Down on the Carolina County Ball We played it hot and hard, nasty, oh yeah  
At the Carolina County Ball and we sang, yeah  
On a boogie woogie Friday night, it's all right  
When you got it sailing, really wailing, it's all right  
All right, oh yeah Hey, do, on a boogie woogie Friday night  
Do, say, everything gotta be all right  
Do, it's a boogie woogie Friday night, hey  
Do, when you got it sailing, really wailing  
It's all right, go ahead Oh, do, on the boogie woogie Friday night  
Do, say, everything gotta be all so right  
Do, it's a boogie woogie Friday night  
Do, when you got it sailing, really wailing  
Hypnotizing, tantalizing  
Carolina County Ball and it's all right
