Whisper the Words

Lila McCann

YeahI've told you how I feel
With only the truest words
All that I can, all that I am
Is waiting for youI wouldn't have gone this far
We wouldn't be right here
If I didn't know deep in your soul
You needed me too so won't youWhisper the words
The words that my heart wants to hear
So that I know this is realTell me, you feel it
And make me believe it
You'll always be thereWhisper the words
The ones you say only to me
That touches my soul tenderlyA foundation to build on
A love that is so strong
Baby, whisper, oh, whisper
Oh, whisper the wordsJust put your hand in mine
And baby, look deep in my eyes
And just with one breath your heart will confess
What we both know deep insideWhisper the words
The words that my heart wants to hear
So that I know this is realTell me, you feel it
Make me believe it
You'll always be thereWhisper the words
The ones you say only to me
That touches my soul tenderlyA foundation to build on
Love that is so strong
Baby, whisper, oh, whisper
Oh, whisper the words, yeah, heyThen somehow, someway
This was meant to last forever, baby
Fate found a way of bringing us together
If you'll just say, please say, please sayWhisper the words
The ones you say only to me
That touches my soul tenderlyA foundation to build on
A love that is so strong
Baby, whisper, oh, whisper
Oh, whisper, oh, whisper the wordsWhisper the words
