Where Do You Go?

Hunters & Collectors

Where do you go
When it starts to rain
Where will you sleep
When the night time comes
What do you do
When your heart's in pain
Where will you run
When the right time comes
These are the things
That I want to know
Where will you hide
When the lights are low
Where do you go
When it starts to rain
Where will you sleep
When the night time comes
