Easy to Love

Slut

Fill it and thrill it
Turn back to kill it
Just gimme the laughter
AgainYou were a mistress
Just making me distress
And I'm gonna miss this
I wait and wait and waitYou're so easy to love
Smile away my pain
You're so easy to love
Make it right again and again, and againEasy to love
Always been too late
You're so easy to love
You can make me wait and wait, and waitWe never had this
We never regret this
And I can never forget this
AgainBut if I might lose you
I've been lucky to chose you
I could never abuse you
Again and again and againYou're so easy to love
Smile away my pain
You're so easy to love
Make it right again and again, and againEasy to love
Always been too late
You're so easy to love
You can make me wait and wait, and waitYou're so easy to love
So easy to love
You're so easy to love
You're so easy to loveYou're so easy to love
Smile away my pain
You're so easy to love
Make it right again and again, and againEasy to love
Always been too late
You're so easy to love
You can make me wait and wait, and wait
