Unleash the Dog

Channel Zero

Explore to explain
Is it the moon or the acid in the rain ?
Like a thousand maniacs running through my bones and brain
Magnetic experience
Maybe a gift of inheritance
It comes and disappears, on a baseless proofUnleash the dog in you
Unleash the dog in youKeep the presence of your mind
No panic symptoms, are hard to find
The lock's possessed by you, seek and strike a key
Submit and be guided
Jump in the cartridge, go and ride it
Shoot yourself away as a heart-beating bulletUnleash the dog in you
Unleash the dog in youI feel the dog come alive
Do you feel the dog inside ?
I can't help it, it's in me
It pumps me up instinctively
And I feel the urge, the dog's alive tonight
Yes I feel, it's the urge, don't deny itThat's the way it is
I can't deny
It's in the nature of the beast
Animal nature, it's my nature
NatureCover the beast in me
And if you look you you'll never see me
I'm the one who's always there
But where ?
