Don't Look Down

Screaming Trees

Don't look down...As we begin to travel mysteries unravel
Control just seems to twist around
Follow me and oh that sound
Don't look downNever find that key somewhere
So fire ties your walking stick
It served me well but now it's gone
Changing shape and end is longDon't look down
Don't look downGet the strangest feeling
Til both become the ceiling
I'm closer for you
You're closer to the secret I'm revealingDon't look downWe go back to a time when
Things weren't quite so numbered
Like ashes in the air I'm being scattered everywhereAs we begin to travel the mysteries unravel
Control just seems to twist around
Follow me and oh that soundDon't look down
Don't look down
Don't look down
