

Lonely Train

Black Stone Cherry

Big train rollin' down the line, makes me lonely
Sometimes I wish to ride away
Sometimes I want to ride away yeah
Big plane flyin' through the clouds, makes me worry
Sometimes I wish to fly away
Sometimes I want to fly away
But you can't judge a book lookin' at the cover
You can't love someone while messin' with another
No you can't win a war fightin' with your brother
You wanna have peace gotta love one another
Big guns lighting up the sky, makes me worry
Sometimes I wish to run away
Sometimes I want to run away
But you can't judge a book lookin' at the cover

You can't love someone while messin' with another
No you can't win a war fightin' with your brother
You wanna have peace gotta love one another
I have seen my brothers in ashes on the ground
And maybe in a new life we can turn this thing around
But you can't judge a book lookin' at the cover
You can't love someone while messin' with another
No you can't win a war fightin' with your brother
You wanna have peace gotta love one another
No you can't judge a book
Gotta love one another
Can't judge a book
No you can't judge a book
