

# Something To Hide

## Of Mice & Men

I can't believe what you tell me  
So I just look away  
When you realize you fail me  
Lying right through your teeth

Anything I see in you  
Everything I thought I knew goes away  
With every word you say, you betray me

Can you see the other side of things?  
Can we be more than what we have become?  
I can see that you've got something to hide  
Something to hide behind those eyes

Eyes, asleep when they're open  
So blind, they keep you awake  
Can we fix what is broken?  
When will you learn from mistakes?

Anything I see in you  
Everything I knew  
It goes away

I know I don't need it  
I won't be defeated  
I won't break  
It's you I believed in  
But you're keeping secrets  
You betray

When you look at me I see right through you

You're a fake  
Get out of my face  
What a mess you've made

You're blind, disguised  
You lie, behind those eyes  
You'll find you're out of time
