

Breathless

40 Below Summer

You believe every word I say
And always took the time to understand
You took my breath away
Is that you slipping right through my hands?
Just like a shooting star
I'm falling from the sky
I wait for you to land Fly away, don't shut me out
Cause I can't be without you
Run away, come with me
Cause I can't be without you
Be without you When I wake up everyday
I need to know you're not so far away
Just like a shooting star
I'm falling from the sky
I wait for you to land Fly away, don't shut me out
Cause I can't be without you
Run away, come with me
Cause I can't be without you
Be without you Open your eyes
And open your life
And just fly away, don't shut me out
Cause I can't be without you Fly away, don't shut me out
Cause I can't be without you
Run away, come with me
Cause I can't be without you
Cause I can't be without you
