

Run Free

Dennis Ferrer

People call me crazy
for the simple fact that you've got my back
but its alright
said its alright with me

cause you saved me from the struggle
to define myself I'm like no one else
you're my guiding light
your my guiding light, ohhhh

You forget all those who have doubted you
with your grace I know we will make it through
with your love I'll know and your seed will grow
and this world will be a better place
so take me there

(take me to the promise land
educate my mind so my soul can run free) x 4

(so my soul can run free free free free) x 4

People have a hard time
understanding why I give you my life
but its alright
said its alright with me

One day they will see you
they'll believe your word no matter what they heard
your the guiding light
your the guiding light, ohhh

You forget all those who have doubted you
with your grace I know we will make it through
with your love I'll know and your seed will grow
and this world will be a better place
so take me there

(take me to the promise land
educate my mind so my soul can run free) x 4

(so my soul can run free free free free) x 4
