

Dead Again

ASA

No more your freaking bullshit
No more you talking of lies
No more you put me down
Deceptive blue eyes
Wake up and smell the coffee
Wake up and take a pill
You think I won't go on without you
You really think I will fail
You really are a fool
You sent a man to fool
And I kinda feel sorry for you What's going around
You talking me down
But I found out that
So it was you
So it was you
You picked up the knife
And then you cut me in two
You stabbed me in the back
And then you twisted it in
Oh oh oh
You left me for dead again No more you blame Jesus
Why don't you pick a lame
I felt that you were normal
But you are devil insane
I tried to keep it grounded
Cause it's no good for my health
But you really can't save a man for yourself
This so much I can say
Before I turn to breath
All times with you Cos what's going around
You talking me down
But I found out that
So it was you
So it was you
You picked up the knife
And then you cut me in two
You stabbed me in the back
And then you twisted it in
Oh oh oh

You left me for dead again
So it was you
You picked up the knife
And then you cut me in two
You stabbed me in the back
And then you twisted it in
Oh oh
You left me for dead againSoldiers foremost
You are no proofSo it was you
Was really you
You picked up the knife
And then you cut me in two
You stabbed me in the back
Then you twisted it in
Oh oh
You left me for dead again
You
So it was you
You picked up the knife
And then you cut me in two
You stabbed me in the back
And then you twisted it in
Oh oh
You left me for dead again
E e....
You left me for dead again
