

# Fallen Heroes

## Majorleap

### Fallen Heroes

Shake it up and find the door out of here  
Fill it up... and get the rest out of here  
Cold December pick up the pace to make it through  
Silly notes you just know what to do..  
And all of the rest.. will soon make it through

There is light and shadow.. inside your soul  
There's a red light shining through.. inside your soul  
We will come home no one's missing no one's gone..  
And all of the rest.. are home

Twenty young men, reached the bottom of their life  
Still not gone, he made it home to his wife  
Trusted feelings.. there's no time for losing hope..  
Fallen Heroes.. guns and battles in clouds of smoke  
And all of the rest.. are home..

There is light and shadow.. inside your soul  
There's a red light shining through.. inside your soul  
We will come home no one's missing no one's gone..  
And all of the rest.. are home
