

Keith B-Real III (Interlude)

Will Smith

Excuse me, I know him, I know him, excuse me, Will
Charlie, get this boy up out of here
I know, I know, I know, hold up
Just give me one second, man Keith, what man
When I look back at this I realize
I came at you sideways and I apologize
You damn right you came at me sideways Right, right I'm having a party, man, my album release
Nice party, listen I like the ice the slaves
You disrespecting my whole thing
I didn't mean to, man, its just I have one thing
I wanna ask you before I get out of here What is it, Keith?
I'm doing something man that's taking me to the next
The next century it's a barbershop, okay, slash studio
Feel it, yeah See now what it is, wait, wait, hold yourself
What it is while youre getting your hair cut
Youre getting your demo cut while
They pushing up the faders, youre getting a fade Yeah, that's hot, you feel it, you feeling it
That's hot, that's hot
All I need is the up front money to get the clippers and the oil
Cause Rudy and my other boy he got the reels And everything we going into dat, everything dat
You know what I can feel, that I can feel that idea, Keith, right
Will give you money on the back end and I'll cut you in
On the motivational tapes and everything You'll have your whole syndicate
You know what, that's hot I can feel that, listen
You know what, write your number down
Write it down for me Right, let me write it
Let me write, you know what, about the number, man
The phones off right now
Somebody cloned my home number, man, yeah And the bill done voluptuated so that won't be on
Until the latter part of the year but you know
I'm a give you the future number
What they called and said is gonna be
The future number its clone free I'm a call you, I'm a call you, Keith
Hey, you keep it real, that's my line
Yeah, okay, you be cool, man
Charlie, take it easy, man This is Keith B Real signing off
And that boy Will Smith
Big Willie Style, baby
Yeah Big Willie, I feel you
