# After The Fall

## Anshelle

I never told you
About the summer
Every day was changin'
Only photographs
But life goes on
In your mind so warm

Out on my own now
And I like the way it feels
You couldn't come through
And I'm too far gone
After the fall

Do you still want it all?
You never told me
About the winter
Every day was changin'
But I remember
But life went on
In my mind so cold
Out on your own now
Do you like the way it feels?
Didn't I come through
You were too far gone
After the fall
I still want it all
