

# Hand Upon My Heart

**Kieran Goss**

You always said that you would stay  
I never thought you would, I never thought you would  
I finally found the words to say  
I never thought I could, never thought I could Right here and now, hand upon my heart  
I need you now, never be apart  
Believe me when I say  
I won't ever let you down You never said that you would go  
I always thought you would, I always thought you would  
But I can't live without you now  
I always thought I could, always thought I could Nobody else could ever woo me like you do  
Wrap me around your heart  
And let me love you, let me love you
