Amor

Los Amigos Invisibles

What is love? It's in the blood, its just a way of life
What is love? It's everything, its something you cant hide
What is love? Is it the way you look into my eyes?
What is love? The things you do that take me by surpriseAmor is to love you, amor is to care
Amor is to people with something to share
Amor for the Spanish, amor for the French
Love in any language always means the sameWhat is love? Is it the joy of having you around?
What is love? Is it the way you lift me when I'm down?
What is love? Is it a dream no one cant do without?
What is love? It's in the words that I'm singing outAmor is to love you, amor is to care
Amor is to people with something to share
Amor for the Spanish, amor for the French
Love in any language always means the sameWhat is love? La no Brasil se fala da curtir
What is love? Dir en Francais ma petit cherie
What is love? Es la emocin que despiertas en mi
What is love? Around the world, they all know what it meansAmor is to love you, amor is to care
Amor is to people with something to share
Amor for the Spanish, amor for the French
Love in any language always means the same
