

Embodiment Of Chaos

Sinister

Hatred, violence, a deadly terror
Teutonic knights, embraced death
The sky turns red, the world will burn
Days of darkness, oblivious prophecy
The lightning death, armed with hate
Prophet transgressor, a demon from the past
The marching terror, puify the world
There's no salvation, the enslaver enslaved
Emerging from chaos
Mass destruction, pure holocaust
Root out the rate in the chambers of death
Hatred, violence
EMBODIMENT OF CHAOS
Legions from hell
Marching through a malicious world
Root out the lambs, incinerated on the cross
Hatred, violence
EMBODIMENT OF CHAOS
Hatred, violence a deadly terror
Teutonic knights, embraced death
The lightning death, armed with hate
Prophet transgressor, a demon from the past
Visions of a time where chaos runs wild
Malicious terror uncontroled
The apocalypse unfolds
I saw the world burn in hate
Pure chaos can't be enslaved
I saw demons in my dreams
Awoken from their deadly sleep
I saw it all under blood
The everlasting holocaust
Destructive forces reign
In chaos, violence and haltred
