New Year's Eve Kiss

Emma McGann

V1
Here come the cards and caroling
I haven't wrapped a single thing
My mind's escaped away from me
No turtle doves or Santa Claus
It isn't what I'm thinking of
Tired of the same old noveltyPRE-CHORUS
Instead I'm waiting for the start of something new
Keep my resolution just for you
Drinking down whatever feels more fun
Counting down 3... 2... 1...CHORUS
Maybe this could be our year
Can't believe you're standing here
So dance with your hands on my hips
Can you read what's on my lips
Promise when the countdown comes
I'll be right there in your arms
I've waited so long for this
You're gonna be my New Year's Eve kissV2
I'm saving up my mistletoe
I'll use it when I really know
When I know I've found everything
I'll skip ahead to NYE
Because I know that's where you'll be
Meet me at midnight when they singPRE-CHORUS
We're waiting for the start of something new
Keep my resolution just for you
Drinking down whatever feels more fun
Counting down... 3... 2... 1...CHORUS
Maybe this could be our year
Can't believe you're standing here
So dance with your hands on my hips
Can you read what's on my lips
Promise when the countdown comes
I'll be right there in your arms
I've waited so long for this
You're gonna be my New Year's Eve kissMIDDLE 8
It's like there's butterflies under my skin
Let's show them how to see the new year inCHORUS
