

Evil Friend

Deadboy & The Elephantmen

Evil friend, evil friend [x2]
It never ends at the death of things
Love will swing, burn everything and sing
Evil friend
Evil friend, evil friend [x2]
There is starlight in your blood
It seems there are shadows are wearing us
Evil friend
Evil friend, evil friend [x2]
You knew rebirth but died again
Evil friend
Black-toothed that speaks no truth
Burn everything and sing along,

Evil friend
Evil friend, evil friend [x2]
We are night sky, we are god's eye,
At the end of a lullaby
On the shore of tears yet to be cryed
We are, we are, night sky, night sky
We are, we are, god's eye, god's eye,
At the end of a lullaby
On the shore of tears yet to be cryed
We are, we are, night sky, night sky
We are, we are, god's eye, god's eye,
At the end of a lullaby
[x3]On the shore of tears yet to be cryed
