

# Ender Will Save Us All

## Dashboard Confessional

It's just like you took contest  
Wear it like a label on your breast  
Don't you see what this takes of me? A certain callousness complies  
With your charm and in your pride  
A hopeful look draped in despise I want to give you whatever you need  
What is it you need? Is it what I need?  
I want to give you whatever you need  
What is it you need? Is it within me? It's hard to explain how I am getting by  
On so little from you  
It's hard to believe that I would let myself  
Get so wrapped into you There's got to be something that would  
Be worthwhile for me to give to you  
We need a connection but you  
Seem to push me far away from you, from you, from you Harder I push the further I fall  
Well, you don't mind me being headstrong  
But you don't want to sing along  
May be it's trite but I can't always, always, always be wrong It's just like you took contest  
Wear it like a label on your breast  
Don't you see what this takes of me? A certain callousness complies  
With your charm and in your pride  
A hopeful look draped in despise I want to give you whatever you need  
What is it you need? Is it what I need?  
I want to give you whatever you need  
What is it you need? Is it within me? It's hard to explain how I am getting by  
On so little from you  
It's hard to believe that I would let myself  
Get so wrapped into you There's got to be something that would  
Be worthwhile for me to give to you  
We need a connection but you  
Seem to push me far away from you, from you, from you Harder I push the further I fall  
Well, you don't mind me being headstrong  
But you don't want to sing along  
May be it's trite but I can't always, always, always be wrong Be wrong, be wrong  
Try not to be, try not to be, try not to be, try not to be wrong
