# Been With a Star

## Omarion

You see me on TV, different videos
Here I got a new chick every week, I know
Don't use that to judge me, come and get to know me
Hopefully, I can show you just what I'm all aboutYou never know what you might be missin'
Gimme a go, yes, I'll beat your interest
This is a show you won't be disappointed
Here's your invitation, come on over right nowHave you ever been with a star?
Everywhere you go everybody knows ya
Have you ever been with a star?
24/7 red carpet, lies, girl, stop itHave you ever been with a star?
Addicted, chew it, sex, not that chick, girl
It's obvious to see where you should be
With me, have you ever been with a star?I bet you never thought I wash my own dishes
I take out the trash, girl, you know I'm gettin'
I know you're assumin' that it's just a song
Only chasin' groupies, you couldn't be more wrongYou never know what you might be missin'
Gimme a go, yes, I'll beat your interest
This is a show you won't be disappointed
Here's your invitation, so why you waitin'?Have you ever been with a star?
Everywhere you go everybody knows ya
Have you ever been with a star?
24/7 red carpet, lies girl, stop itHave you ever been with a star?
Addicted, chew it, sex, not that chick, girl
It's obvious to see where you should be
With me, do you wanna be with a star?There's only so much I can say
To persuade you my way
Oh girl, girl, you need to trust in me
Forget 'bout what you heard
Baby, I'ma show you what I'm all about, babyHave you ever been with a star?
Everywhere you go everybody knows ya
Have you ever been with a star?
24/7 red carpet, lies, girl, stop itHave you ever been with a star?
Addicted, chew it, sex, not that chick, girl
It's obvious to see where you should be
With me, have you ever been with a star?Have you ever been with a star?
Have you ever been with a star?
Have you ever been with a star?
It's obvious to see where you should be
