# Wife By Two Thousand

## Sneaker Pimps

Never so complete just failing on its feet
Choking out these last few days here
Never ever lied all confidence at all times
Trying hard to love myselfI think that I need some working on so work on me
I think that nothing's getting through so get to me
Just another no show waste of passing go
Christ knows how we get to be hereNo one's broken, no one's beaten
I can see a rainbow near them
I can see a rainbowNever so confused just laughed out cost abused
Aiming loosely your direction
Always too extreme all 'cause and case to plead
I think that I need some working on so work on meI think that nothing's getting through so get to me
Just another no name taken passing blame
Christ knows how we get to be hereAlways coming clean all case and cause to bleed
Trying hard to like yourself
Never so complete just falling on its feet
Choking out these last few breaths hereI think that I need some working on so work on me
I think that nothing's getting through so get to me
Just another no show scissors paper stone
Christ knows why we get to be here
