

# Uptight Downtown

La Roux

Streets are lined with people  
People who want to move, move, move  
How could all these people have so much to prove, prove, prove  
Oh I can only ask myself  
Oh where are you all going  
And won't you take me with you to  
Where all the sirens are blaring Uptight downtown  
I'll prove that's how to make the ground  
And now I know the temperature is rising, is rising  
Uptight downtown  
I'll prove that's how to make the ground  
And now I know the temperature is rising, is rising Streets are lined with people  
With nothing else to lose, lose, lose  
When did all these people decide to change their shoes, shoes, shoes  
Oh I can only ask myself  
Oh where are you all going  
And won't you take me with you to  
Where all the sirens are blaring Uptight downtown  
I'll prove that's how to make the ground  
And now I know the temperature is rising, is rising Uptight downtown  
I'll prove that's how to make the ground  
And now I know the temperature is rising, is rising Uptight  
Uptight  
Uptight  
Uptight  
Uptight  
Uptight  
Uptight downtown  
Uptight downtown  
Uptight downtown  
Uptight downtown Why are we fighting  
I don't understand  
Oh but the temperature is rising tonight
