# Next Position Please

## Cheap Trick

People all over the world they get up they get down
They get in they get out they get pushed, they go back
Start all over again till they get to the endI'm from a small town had a poor family
Mama was sick, papa worked the factory
I led a rich life never had to work hard
House in the country horses in my backyardNext position please
Do I have to get down on my knees
Next position please
I'm in a hurry, so hurry pleaseRead between the lines learn a new message
Read the latest book it's a new twist
Be the first one to have a new ideal
You'll never get bored with mirrors on the ceilingNext position please
Do I have to get down on my knees
Next position please
I'm in a hurry, so hurry pleasePeople all over the world they get up they get down
They get in they get out they get pushed, they go back
Start all over again till they get to the endI wanna move up within the company I can do better with an opportunity
Why don't they use me instead of abuse me?
I'm ten out of ten, not some whore in some movie
I wanna be the biggest gun in the world I wanna see the tits on every girlNext position please
You have to get down on your knees
Next position please
I'm in a hurry, so hurry pleaseNext position please
You have to get down on your knees
Next position please
I'm in a hurry, so hurry pleaseNext position please
You have to get down on your knees
Next position please
I'm in a hurry, so hurry pleaseNext position please
You have to get down on your knees
Next position please
I'm in a hurry, so hurry please
