

# Searching for Love

## Midnight Star

I am searching for love, searching for love, searching for love (2x's)

Sometimes in my life, I feel that I may have  
Everything I need  
But deep down inside of me, my heart is empty  
Girl can't you see

Sometimes I'm low in despair, with no one to care  
Please love don't leave me there, Wooahhh ohh ohhh ohhhhhh  
I'm so all alone I have no one to call my own  
And when I'm weak there's no one there to make me strong

Seems you feel the way I do  
And I know just what you've been going through  
'Cause I feel, I feel the same way too  
Ohh Ohh Ohh Ohh Ohh Ohh Ohh Ohh Ohh Ohh Ohh Ohh

I am searching for love, searching for love, searching for love (2x's)

When I lay down at night, it's hard for me to rest  
'Cause I need someone to love  
And these tears that I cry, will not bring to my side  
The one I'm thinking of

Sometimes I'm low in despair, with no one to care  
Please love don't leave me there, Oh oh ooh oh  
I'm so all alone, can't find no one to call my own  
And when I'm weak when I'm weak, you're there, to make me strong (wwelllllllll)

Seems you feel the way I do  
There's no one  
There's no one who knows what we've been through

Together we will find (I know together)  
We will find  
Together we will find.....love....., wooo oohh oohh ooh ooh

I am searching for love, searching for love, searching for love (repeat and ad lib to end)
