

Take Your Panties

Pollock

And she's come back
And she's come back
Don't you know?
And if the rules changes
Leaves begin to fall
Now it's my turn
Stop playing around
You know I can't take
Deception lying downFall
Pick up the pieces you broke
Before another part falls
You should be on the other sideYou'll come running
Sublime could happen
It's what we both chose
Never been this close
You're still driving
It's hypnotizing
Waiting for your calls
Banging at the doorAnd she's come back
And she's come back
Don't you know?
Marching around like
Who can let you go?
Now you are shining
Stop playing around
I won't be sorry
You last for just one nightYou'll come running
Sublime could happen
It's what we both chose
Never been this closeFall
Pick up the pieces you broke
Before another part falls
You should be on the other sideFall
Take your panties and go
Before another part falls
You should be on the other sideFall
Pick up the pieces you broke
Before another part falls
You should be on the other sideYou're still driving

It's hypnotizing
Waiting for your calls
Banging at the door
