

Cornflower Blue

The Devoted Few

up with the sun every morning you find
nothing new has come in the morning light
cornflower blue, nothing new to you
i won't be there when you turn out your light
turn out your lightbut it's all gonna be alright tomorrow so sleep now my girl
down by the sea while the city
sleeps
these streets are made out of wood and thieves
cornflower blue, nothing new to you
weave your hope out of sand and leaves
sand and leavesbut it's all gonna be alright tomorrow so sleep now my girl
dream, don't let time get you
down
dream,don't
let
time
get
you
down.
