

Shinedown

Bully

A little more than life's been wasted
Since you went away, nothing's changed
We stick together, it won't last forever
So why is there so much pain?
I can't explain
This war I fought without you
It's all in my head, well step aside
And succumb
The last time was free, yeah
[Chorus] Give the times, it's never gonna change
I've made up my mind, I still feel the same
Release me from a life without pain
Shine down your light on me
Give the times, it's never gonna change

I've made up my mind, I still feel the same
Release me from a life without pain
Shine down your light on me
One million
Short of a billion
I can't speak if you won't listen
There's no-one, no way I'm falling down without you here
Lift off the stain I wear and graph this state of mind
[Chorus] Give up cause my mind is made
I can't feel the same
If there ain't nothing changed
[Chorus]
