

# Alteration X 10

## Tiamat

It comes smoothly at start  
Stirs gently in the colour pot  
Centrifuge  
Restore amends  
For every spiralchange  
A snowflake bride  
A heroine (---heroin, psilocybin, mescaline, psilocin, fucking oxytocin  
bitch)  
A quark resolution of god  
An angel in powder snow  
Symmetrical asymmetry a newborn star of logic a newborn star of magic  
Take a shortwave frequency ride  
(any you like)  
What you believe in, you'll find  
Close your eyes to see  
This will take awhile...  
I wipe the steamy window lustre  
Today I'll attend a new planet earth  
After you sir...
