

Get Up

Trapt

Your lonely cage
Is now unlocked
Once shackled ankles
Now free to walk
The chains that bind you
Are breaking off
One by one
As the floor beneath you drops
Get up, get off the ground
I want to see your head in the clouds
Get up, get off the ground
The sky's the only limit we got now
I see you reaching out
Through a sea of faces in the crowd
Get up, get off the ground
Break the ties to which you have been bound
Don't let this world bring you down
Get up, get off the ground
You wait so long to feel alive
For someone to come, bring you to life
That time is here now, you survived
Don't hold back from the ashes you will rise
Get up, get off the ground
I want to see your head in the clouds
Get up, get off the ground
The sky's the only limit we got now
I see you reaching out
Through a sea of faces in the crowd
Get up, get off the ground
Break the ties to which you have been bound
Don't let this world bring you down
Get up, get off the ground
No more limitations
No restrictions
No more hesitation
No inhibitions
You have been awakened
You know your life has just begun
You're not just anyone

There's nothing you can't overcome
Get up, get off the ground
Get up, get off the ground
Get up, get off the ground
Get up, get off the ground
Get up, get off the ground
Get up, get off the ground
Get up, get off the ground
Get up, get off
Get up, get off the ground
I want to see your head in the clouds
Get up, get off the ground
The sky's the only limit we got now
I see you reaching out
Through a sea of faces in the crowd
Get up, get off the ground
Break the ties to which you have been bound
Don't let this world bring you down
Get up, get off the ground
Get up, get off the ground
Get up, get off the ground
Don't ever take the easy way out
You gotta make everyday count
Get up, get off the ground
Get up, get off the ground
Every thing'll come back around
So come on, get up off the ground
Get up off the ground
