

# No Feelings (Chris Spedding Demo Version)

## Sex Pistols

I've seen you in the mirror  
When the story began And I fell in love with you.  
I love yer mortal sin  
Yer brains are locked away  
But I love your company  
I only ever leave you  
When you got no money  
I got no emotions for anybody else  
You better understand  
I'm in love with myself, myself  
My beautiful self I've no feeling, no feeling, no feeling  
For anybody else Hello and goodbye  
And a run around Sue  
You follow me around  
Like a pretty pot of glue  
I kick you in the head  
You got nothing to say  
Get out of the way  
'Cause I gotta get away  
You never realize  
I take the piss out of you  
You come up and see me  
And I'll beat you black and blue okay  
I'll send you away I got no feeling, no feeling, no feeling  
For anybody else  
Except for myself  
My beautiful self-ish There ain't no moonlight  
After midnight  
I see you selling people  
Out looking for delight  
Well I'm so happy  
I'm feeling so fine  
I'm watching all the rubbish  
You're wasting my time  
I look around your house  
And there's nothing to steal  
I kick you in the brains  
When you get down to kneel and pray  
You pray to your God I've no feeling, no feeling, I got no feeling

For anybody else  
I've no feeling, no feeling, no feeling  
For anybody else  
Except for myself  
Your daddy's gone away  
Be back another day  
See his picture hanging on your wall
