

# I Won't Take It

## Nathan Caswell

I go to work to earn a wage  
So I can make rent on my cage  
Pay the loan back to the bank  
Put some gas into the tank  
So I can get to work again  
When will it ever end?  
I will not take it anymore

I won't take it anymore  
I'm tired of feeling overwhelmed  
Disenfranchised  
The wool pulled over my eyes  
I no longer can ignore  
There are things worth standing for  
I will not take it anymore

In other countries things are worse  
Under the world banking curse  
Don't complain about the debt  
Just be glad for what you get  
Whispers from the factory  
Say "this is not the life for me."  
I will not take it anymore

I won't take it anymore  
I'm tired of feeling overwhelmed  
Disenfranchised  
The wool pulled over my eyes  
I no longer can ignore  
There are things worth standing for  
I will not take it anymore

Many things are dear to me  
But the things I never see  
When I turn on my TV  
Instead I'm told to be afraid  
Buy some toothpaste and get laid  
Relax you've got it made  
  
But I know I'm not alone

Tired of living as a drone  
There are others, this I know  
And our numbers only grow  
More and more wake up to say  
    I can see a better way  
    I will not take it anymore

    I won't take it anymore  
    I'm tired of feeling overwhelmed  
        Disenfranchised  
    The wool pulled over my eyes  
        I no longer can ignore  
    There are things worth standing for  
        I will not take it anymore

    I won't take it anymore  
    I'm tired of feeling overwhelmed  
        Disenfranchised  
    The wool pulled over my eyes  
        I no longer can ignore  
    There are things worth standing for  
        I will not take it anymore
