## Gavin Degraw

I'm a poor, I'm a rich  
I'm a mountain and a ditch  
I'm a dagger and a shield  
I'm impatient, I'm a yield  
And I wanna be free, wind in my hair  
Salt on my skin, sun in the air  
I have to feel love holding on me  
I'll give you everything that you would ever need  
I'm the fight and the dance  
I am heartbreak and romance  
The feather and the stone  
I feel crowded and alone  
And I wanna be free, wind in my hair  
Salt on my skin, sun in the air  
I have to feel love holding on me  
I'll give you everything that you would ever need  
And every once in a while I wanna sit back and enjoy the view  
I'm feeling my senses  
But woman my life has been surrounded by fences  
But I found some that I could see through, I could see through  
And I wanna be free, wind in my hair  
Salt on my skin, sun in the air  
I have to feel love holding on me  
I'll give you everything that you would ever need  
Everything that you would ever need  
Everything that you would ever need
