Runnin`

Bass Bumpers

Runnin used to be the way I pass my time
all over town just to see what I could find
every now and then I find some company
but every kiss temporary
I try to tell myself that it was just a game
I'd run again to try and ease that lonely pain
no matter where I travel there I'll be stuck in those walls of skin called me
And I was just runnin' to find somethin true
and I just be runnin with nothing to prove
and I can't go runnin and nothing to show
they all saw me runnin and set there he go
You caught my eye one day when I was on a run
so how you make me feel my life
had just begun
I've seen the last of all my roomate days
'cause I grew from you I've never run oh babe
Now you got me runnin to get home to you
and my heart keeps running ..when I think ofthings you do
and I full be runnin to the one else no one
they all see me runnin and say that love is for sure oh yeah
I'm not hesitating no and as soon as work is done yeah
as fast as my legs can carry me yeah
mhmh yeah life ain't complicated oh no
when you got only one, one heart one joy
one place to be
And now I'm watching people running all around
chasing after things I will just run and down
life is so much better if they change their way
I wish I could tell them but you know I can't stay
'cause I gotta get runnin and get home to you, gotta get home
and my heart keep runnin when I think of things you do,
think about the things you do
and I won't be runnin, no one else, no one no more
and now see me runnin and say that's love for sure
I gotta get runnin and get home to you, gotta get home
and my heart keep runnin when I think of things you do,
and I won't be runnin, no one else, no one no more
and now see me runnin and say that's love for sure
and all see me running and say that's love for sure

they all see me runnin and say that's love for sure
