

Everything I Hoped You'd Be

Bebo Norman

Take me to the desert
You will be the water
I will drink forever to fill my soul And lead me through the fire
Of darkness and desire
You will be my shelter
You will be my shelter I'll find You there
I'll find You there It's here that I call out
It's here that I fall down
It's here that I find out
That You are everything I hoped You'd be Take me to the river
Lead me to the healer
Let it wash me over, oh my soul And take me to the mountain
Lead me to the altar
We will build together
And I will remember I found You there
I found You there It's here that I call out
It's here that I fall down
It's here that I find out
That You are everything It's here that I call out
It's here that I fall down
It's here that I find out
That You are everything I hoped You'd be the sun that always shines
I hoped You'd be the everlasting life It's here that I call out
It's here that I fall down
It's here that I find out
That You are everything It's here that I call out
It's here that I fall down
It's here that I find out
That You are everything I hoped You'd be
I hoped You'd be, I hoped You'd be
I hoped You'd be
