Set Me On Fire

Beartooth

I'm in love with the end of my rope
Ripping apart what I'll never sow
I'm alive somewhere deep in my soul
But it's a light that refuses to glowStay in the boat, stay in the boat
And keep your voices down
Stay in the boat, stay in the boat
Stay in the boat, keep your voices downOur words will outlast our minds
Our scars will outlast our lives
Our words will outlast our minds
Our scars will outlast our livesWe're all alone in the end of it all
Screaming out for the pain to stop
Forgive me, forget me
I swear I'm not worth your timeKeep your eyes peeled, keep your ears peeled
For the end of the world
Keep your eyes peeled, keep your ears peeled
For the end of the worldOur words will outlast our minds
Our scars will outlast our lives
Our words will outlast our minds
Our scars will outlast our livesSet my tongue on fire
Set my tongue on fire
Set my tongue on fireSet me on fire
