Angel Dance

Robert Plant

Good night, sleep tight
The big bright sun has gone away
You know it's gone awayGoodbye, don't cry
Tomorrow will bring us a brand new day
We can run and playAnd they'll laugh up and down the hall
Don't you go shout when you hear them fall
Let them fly right across the wall
Let them cry 'til the morning callsLittle angel dance
Little angel danceBig night, bright lights
Time now to lay them all to rest
Put 'em all to restBad guys, mean eyes
All gone away to where they belong
Let's just sing our songAnd they'll laugh up and down the hall
Don't go shout when you hear them fall
Let them fly across the wall
Let them cry 'til the morning callsLittle angel dance, hey
Little angel dance, oh
Little angel danceGood night, sleep tight
The big bright sun has gone away
Done and gone awayGoodbye, don't cry
Tomorrow will bring us a brand new day
We can run and playAnd they'll laugh up and down the hall
Don't go shout when you hear them fall
Let them fly across the wall
Let them cry 'til the morning callsLittle angel dance
Little angel dance
Little angel dance
Come on, come on, come on and dance, dance
