City Of The Angels

Bill Withers

City of the angels spread your wings for me
I've been other places lookin for my dream
Eastern cities move to fast
Southern ones to slow
I can't go back to my past
And I need someplace to grow
City of the Angels
Clear your cloudy skies for me
I heard you got some places that I oughta see
Heard you got a disneyland not too far away
When it rains I understand the skies are clear all day
LA, LA, find a place for me
Gimme all your spaces please
It's where I wanna be

City of the Angels spread your wings for me
I heard you got some places an old man like me should see
Heard 'bout your disneyland not too far away from town
When it rains I understand the skies are clear all day
LA, LA, find a place for me
Gimme all your spaces please
It's where I wanna be
I heard you got a disneyland not to far away
And when it rains I understand the skies are clear all day
LA, LA, find a place for me
Gimme all your spaces please
It's where I wanna be
