

Electric (feat. Miss Amani)

The DNC

Yes thats my favorite girl, every time we get together it gets electrical.
Were attracted to each other like two opposite poles pulling towards each other we cant say no.
Can't say no and won't say no, so hot in here i wish i had a window.
Electric magnetic energetic and there's nothing else like it.
The way her body feels don't ever wanna feel another feeling Got me exploding like i overloaded baby lets go.
You got me feeling alright.
