Everything I Ever Wanted

Bright Light Bright Light

All the times I've tried to be
Something to stop your heart from breaking
I didn't want to make you mine
The only thing I ever wanted
Was for the love you long to see,
To be yours for the taken
And all the dreams you dare to dream
To come true, so you CAN BE FREE
And all the times I've crossed my heart
I only meant that I would try
To pick up pieces as they fell
The only thing I ever wanted
Is for the love you long to keep
To be yours when you need it
And all the dreams you dare to dream
To come true, so you CAN BE FREE!And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wantedIt's enough to see someone
Love come first,
So no more WORDS
It's enough to see someone
Love move on
And when they're gone
It's enough to know you tried
To keep them safe
To try your WAY
It's enough to see someone
Love come first
So no more WORDS,
IT'S enough!And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wanted

And everything I ever wanted
And everything I ever wanted
And everything I ever wantedAnd everything I ever wanted
Is the chance to see you smile
And everything I ever said
Is in your hopes to meet sometime
And everything you ever wanted,
Would be yours if you could see
And everything I ever did,
To love in some way
For every word I didn't listen,
And every chance I didn't take
And everything I ever wanted
Is to love in some wayAnd everything I ever wanted
And everything I ever wanted
And everything I ever wanted
And everything I ever wantedAll the times I've tried to be
Something to stop your heart from breaking
I didn't want to make you mine
The only thing I ever wanted
Is for the love you long to see
To be yours for the taken
And all the dreams you dare to dream
To come true, so you COULD BE FREE
